📞 +91 7659955449

📍 Hyderabad, Telangana , India

User experience designer with **2 years** of experience creating interactive user experiences. Collaborated with teams of 15-25 people across technology, business and design departments.

WORK EXPERIENCE

Present ● **Qentelli Solutions Private Ltd, Hyderabad**

Customer Experience Designer (CX)   NOV 2021- Present

Qniverse

It is a engaging platform for all teams in our organization to make communications productively.

My-Role: As a UX/UI Designer, I lead the end-to-end user experience process, from feature segregation and research to wire framing, prototyping, and usability testing, to enhance product usability and user journeys.

Ortho Q

It is a online orthodontists consultation website and a place to locate nearby network clinics.

My-Role: In charge of patient-friendly doctor appointment booking UX, overseeing feature segregation, usability research, wireframing, demographics, usability testing, and prototyping.

Pace

It is a performance monitoring platform which is mainly focused on real user experience and more.

My-Role: Leading user experience creation for live business flow monitoring dashboards, involving feature segregation, usability research, wireframing, and design system implementation.

2021 ● **Freelance**

UX & UI Designer   3 Months

PRO Chat Web Design

Challenge
Need a platform to communicate Between Teams on Agile Project Management.

Solution: Provided a design to effectively and efficiently communicate project management details to cross-functional teams.

Design Projects
Food App
Undertaking a self-initiated UI design challenge to revamp existing food apps, showcasing my design skills and problem-solving abilities.

Helping hands
Designed homepage, dashboard, favorites, volunteer, and administrator pages, optimized onboarding, enhanced user engagement, and streamlined volunteer management for improved overall effectiveness.

HIGHER EDUCATION

2018 ● **Pondicherry University**

Mechanical Engineering   B.tech
